

Marblehead's municipal waterworks is a Class III surface water system that has been in continuous operation since 1959. Drawing from an intake in Lake Erie, the plant produces clean drinking water distributed to approximately 830 customers in the village.

To view and pay your bill online go to www.ub-pay.com. Please make sure your name matches the name on your bill in ALL CAPS and use municipal code **MarbleheadOH440** to set up your online account. Credit card processing fee is \$3.00 per each \$100.00 transaction.
